

MASTER SAYS

Sound familiar?

Every VIT student has been here. The good news: **There is one place that solves all of it.**

Can't find previous year question papers before CAT or FAT? VIT PYQ's fix: Filter by exam, semester and year, then download for free.	Chasing seniors and group chats for notes? VIT PYQ's fix: Download notes shared by students from all five campuses.
Wondering what your GPA or CGPA could turn out to be? VIT PYQ's fix: Enter credits and expected grades for an instant estimate.	Struggling with slot clashes while planning your timetable? VIT PYQ's fix: The planner rejects clashing slots automatically.
Want to help your juniors and get rewarded for it? VIT PYQ's fix: Upload a paper, earn ZX and climb the leaderboard.	Worried about your privacy online? VIT PYQ's fix: Choose a public or private profile. No ads, no tracking cookies.

Meet VIT PYQ's: a free, community-driven platform where VIT students share previous year papers and notes, and use handy tools, all in one place.

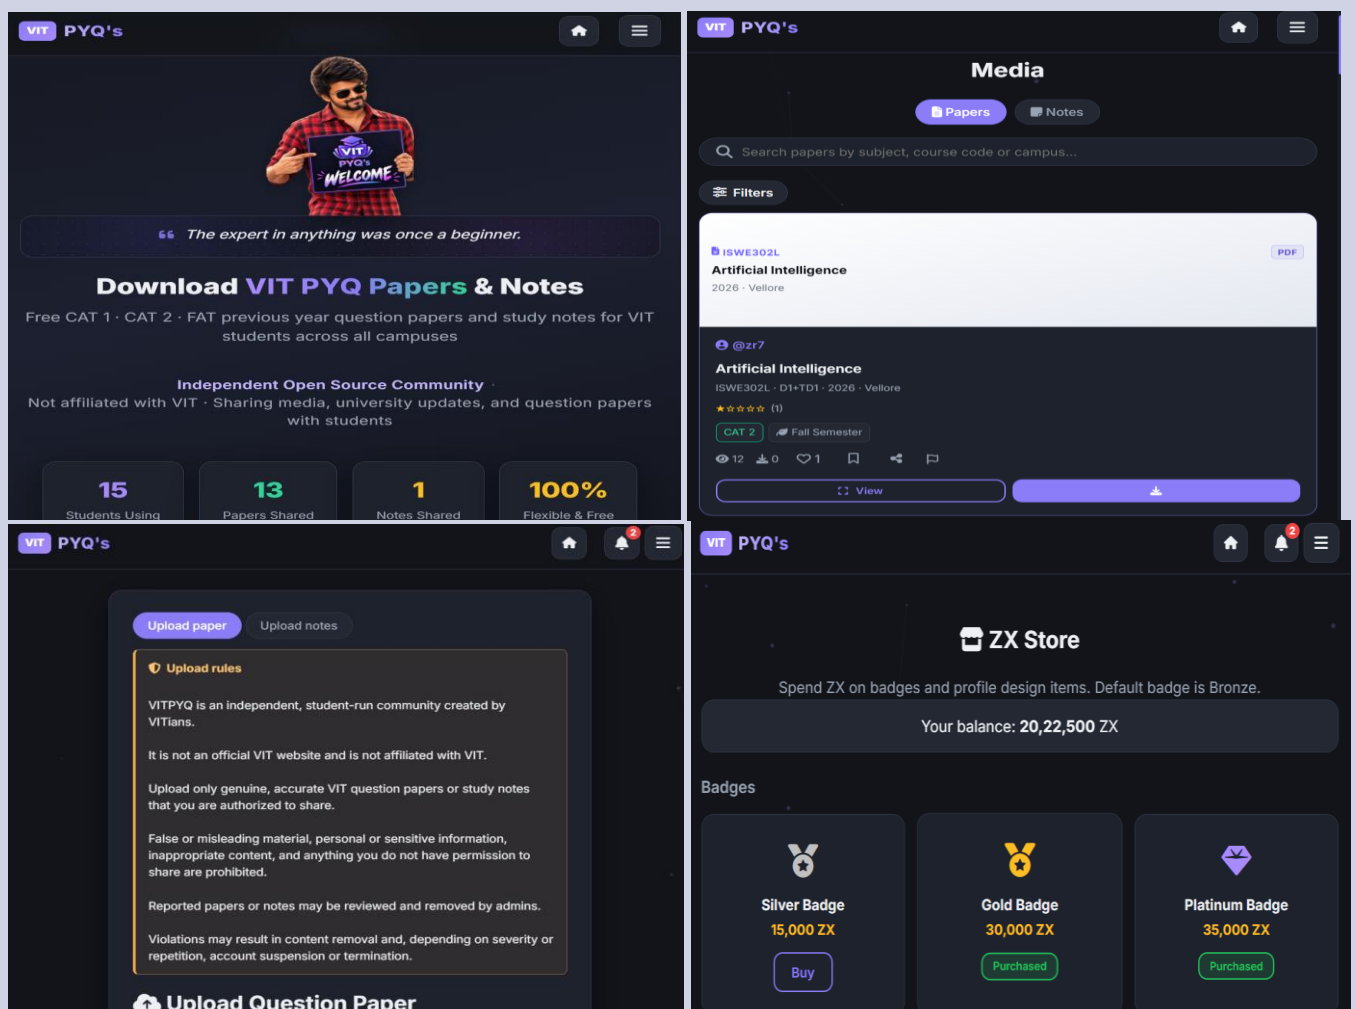

1. Website Overview

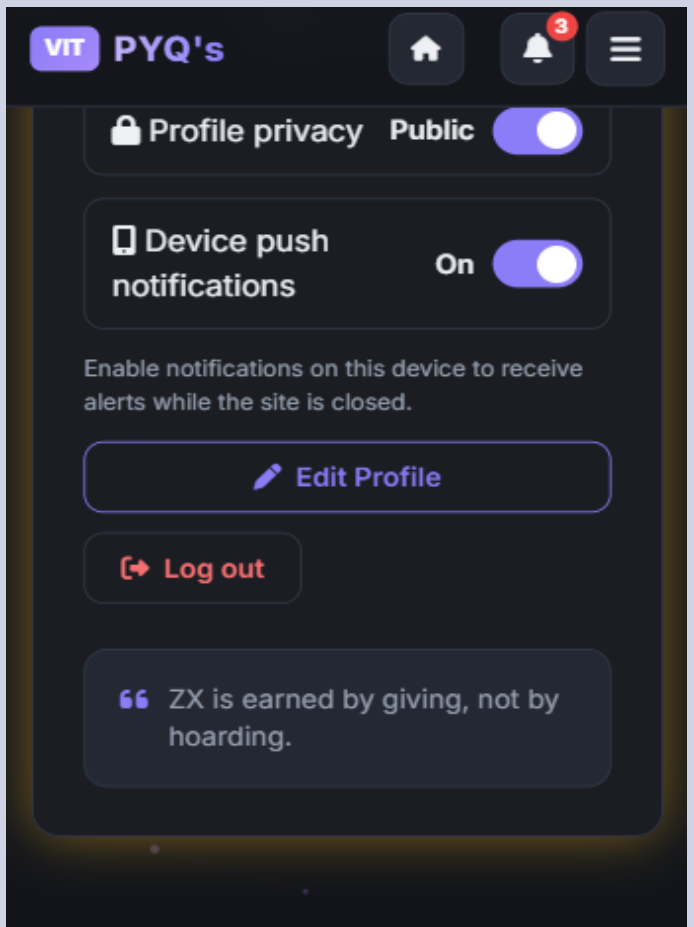

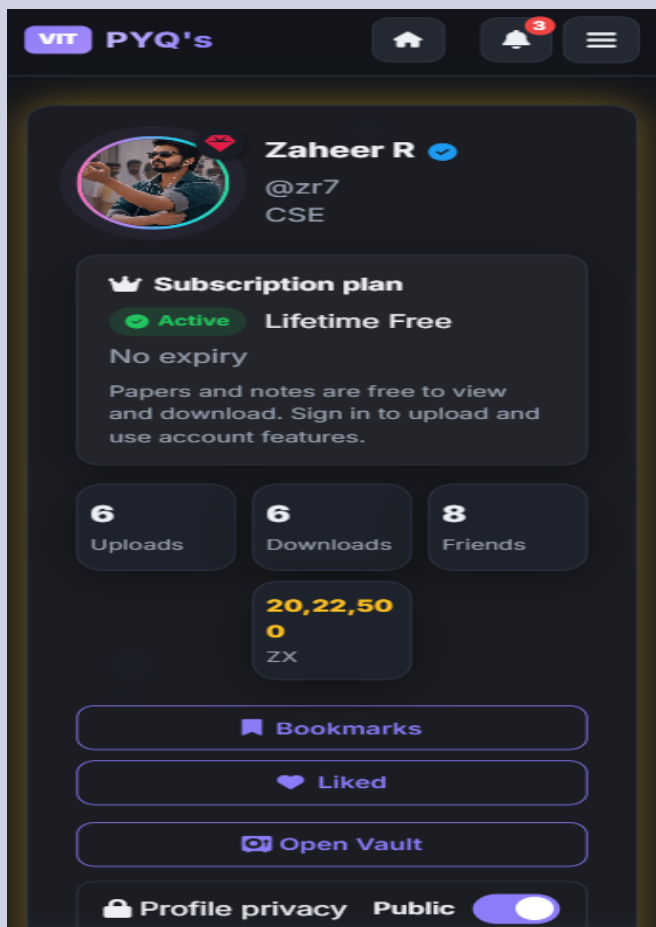

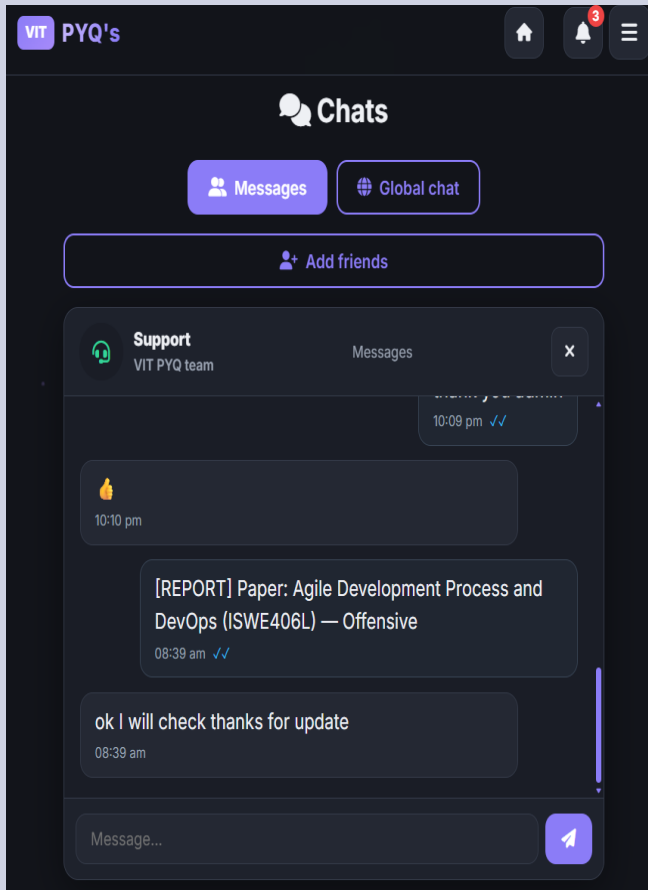

Website name	VIT PYQ's: For VITians
Website URL	https://vit-pyq-v2.web.app
Main purpose	Helps VIT students find and share previous year question papers (CAT 1, CAT 2, FAT) and study notes, with tools for GPA and timetable planning.
Target audience	VIT students on all five campuses: Vellore, Chennai, AP, Bhopal and Bangalore.
Cost	Free to use. Downloads are free and every logged-in user gets a free, lifetime subscription.

2. Main Pages & Structure

Everything is reachable from the top menu (or the bottom bar on mobile)

Home	Welcome page with community stats, campus list, quick paper filters and the Student Tools (GPA predictor, timetable planner), plus student feedback.
Media	Browse question papers and notes. Filter by exam (CAT 1 / CAT 2 / FAT), semester (Fall / Winter) and year.
Upload	Share a question paper or study notes, preview before submitting and earn ZX rewards.
Store	Spend ZX on badges, profile designs and a Verified tick.
Leaderboard	Highlights top contributors: most uploads, most ZX and most downloads.
Global Chat	Chat with the community, request papers, add friends and message privately.
My Profile	Your stats, subscription plan, Vault, bookmarks, liked papers and privacy settings.
Developer	About the student who built the platform.

Timetable Planner: no more slot confusion

Choose theory or lab slots (A1, B1, C1 and so on) and the weekly grid fills automatically using VIT slot timings. If two slots clash, the planner rejects the combination. Name your timetable and export it to Excel or PDF.

5. Subscription

- ❖ **Free and lifetime:** The subscription is free and lifetime accessible.
- ❖ **No renewal:** There is nothing to pay and nothing to renew.
- ❖ **Stay informed:** Your plan is always shown on your profile.

6. How to Use the Website

Get started in under two minutes

1	Open the link Visit https://vit-pyq-v2.web.app in any web browser on your phone or laptop.
2	Log in VIT students tap Continue with Google by choosing their campus.
3	Accept the community terms A quick read and a tick, so everyone uses the platform respectfully.
4	Browse Media Open Media to explore papers and notes using the filters.
5	Download or upload Tap a paper, then download. To contribute, go to Upload, fill in the details, preview and submit.
6	Earn, spend and climb Collect ZX, spend it in the Store and rise on the Leaderboard.

7. Privacy, Safety & Trust

- ❖ **You control your profile:** Choose Public or Private. A private profile shows only a lock message and a Send Friend Request button.
- ❖ **Private downloads:** Your download history is visible only to you and the Admin. Public profiles never show downloads.
- ❖ **No ads, no tracking:** Site data is used only to keep your session and preferences working. No advertising or analytics cookies, and no ads.
- ❖ **Moderated community:** Admins can remove inaccurate or inappropriate material and act on misuse, with a message explaining the reason.
- ❖ **Community rules:** Share only material you have permission to share, and never post personal or confidential information.

Ready to make your semester easier?

Join the VIT PYQ's community today. It's free, it's simple and it's built by a VITian for VITians.

Custom domain: <https://vitpyqpapers.in>

Vercel domain: <https://vitpyqpapers.vercel.app>

Share this with your friends and help every VITian!

Please note: VIT PYQ's is an independent student community and is not affiliated with, endorsed by or operated by VIT. Shared material is user-provided, so please verify papers and notes before academic use. Illustrations in this document are for explanation only; sample values shown are not real data.

Thank You!

Our Motto

Not built to impress. Built to help every VITian.

This project exists for one reason only: to solve a real problem that every VITian faces.

Today, students search across many different websites and apps just to get their basic academic work done: one place for question papers, another for notes, another for planning a timetable, another for calculating GPA and CGPA. That scattered effort costs time, and time is what a student never has enough of.

Our aim and motto is to build the best product of its kind that exists today, shaped by the ideas of seniors and juniors alike, and polished until every feature is implemented perfectly. We want this to become a standard product that stands out against all the rest.

For a VITian, this is the one tool to plan a timetable, predict GPA and CGPA, and find PYQ papers and notes, all in one place, free and for life.

This project does not belong to its developer. It belongs to the students. It is driven by students, built for students, and powered by the people who use it.

All we ask of you is simple: become a user, follow this website, and share it with a friend. Every upload, every note and every new member makes this community stronger, and helps the next VITian walk into an exam a little more prepared.

Study. Share. Succeed. Together.
